About the Downloaded Assessments

Assessments download to a zip file containing two folders, one with the assessment and image, and another containing the answer or answer key files, if available. Answer key files may contain drawings, detailed explanations, or rubrics. Each assessment, and the corresponding answer, is delivered as an individual PDF in the folder with the assessment identifier number in the file name (e.g., biomolviz-20009.pdf).

To copy assessments to another file format or Learning Management System (LMS): Question text may be copy/pasted directly into a new file, or into a LMS (e.g., Canvas quiz, Blackboard homework). To copy or save images from the PDF: left click on the image to select it, and then right click to copy or save the file as an image on your computer.

Answer Keys: Answer keys download as separate PDF files. If the answer is brief (e.g., a multiple-choice question), you may wish to obtain/copy answers from the full record view of the assessment instead of the downloaded file.

BioMolViz Library Terms and Conditions

By using the BioMolViz Library, you agree to the terms and conditions at <https://biomolviz.org/terms>.

In brief, you agree to use these tools for non-commercial educational assessment only, either in your classroom or through a learning management system. You agree to NOT share these tools publicly or distribute on other websites outside your primary work institution. You are free to adapt (i.e., remix, transform, and build upon the material) to serve your teaching needs.
